

WHERE WEEDS AND WATER MEET

Roundup Custom™ herbicide solves weed and brush problems with convenient, broad-spectrum control.

- Applicator flexibility for aquatic and terrestrial weed control
- Controls emerged vegetation in and around bodies of fresh and salt water
- Absorbed by plant foliage, moving throughout the entire plant to control more than 190 species of herbaceous weeds, brush and vines

TOUGH ON WEEDS — SAFE ON BERMUDAGRASS, BAHIAGRASS AND WILDFLOWERS

Outrider® herbicide was developed for use on roadsides, as well as unimproved noncrop areas, including dry ditches, ditch banks, industry sites and rangeland.

- Controls a wide range of annual and perennial broadleaf weeds and grasses, including tough-to-control Johnsongrass, nutsedge, downy brome or cheatgrass
- Provides excellent safety for use in unimproved bermudagrass, bahiagrass and most native prairie grasses
- Provides safety needed to protect most wildflowers
- Now labeled for use in pastures

PEACE OF MIND FOR TOUGH JOBS

Roundup PRO® Concentrate offers unsurpassed weed control in a concentrated formula.

- Tested and proven results
- One-hour rainfast warranty
- No other herbicide controls more weeds
- Fewer containers to handle, with packaging options available to fit nearly every application need

Roundup Technology® includes Monsanto's glyphosate-based herbicide technologies. Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.

TRUEBLUE ADVANTAGE
PROVEN | RELIABLE | SUPPORTED™

■ PROVEN:

Monsanto products have built a reputation for consistent quality and professional performance while meeting the expectations of the Industrial Turf and Ornamental industry.

■ RELIABLE:

With more than 30 years of manufacturing experience and containing the highest quality ingredients, Monsanto products deliver consistent performance.

■ SUPPORTED:

Monsanto's high-quality products are backed by the most experienced team of experts in the business.

An Entire Team of IT&O Solutions

For more than 30 years, Monsanto has built a reputation for providing dependable solutions to weed control problems. Its family of Industrial, Turf and Ornamental herbicides provides consistent quality and performance in professional management situations such as roadsides, railroad rights of way, turf management and landscaping.

ROUNDUP PROMAX® ■ ROUNDUP QUIKPRO™ ■ CERTAINTY®
ROUNDUP CUSTOM™ ■ OUTRIDER® ■ ROUNDUP PRO® CONCENTRATE

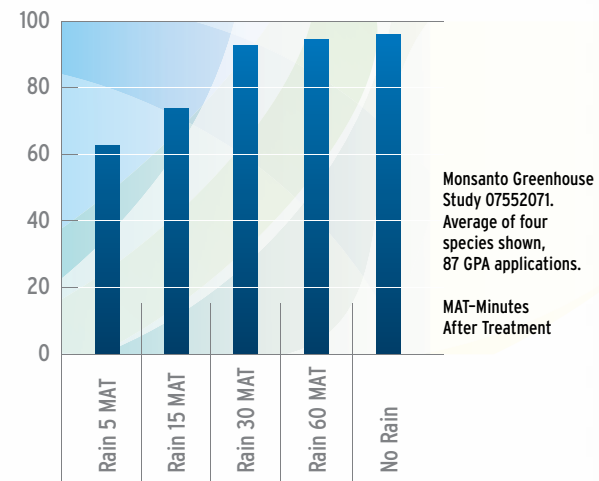

ROUNDUP PROMAX® is the next generation in the evolution of high-performing Roundup® IT&O Products for the GREEN industry.

- **More Concentrated** – Roundup PROMAX is a potassium salt formulation- One gallon of Roundup PROMAX contains the glyphosate acid equivalent of 6 quarts of Roundup PRO®
- **Consistent, Professional Performance** – Roundup PROMAX controls a broad spectrum of weeds with virtually no re-growth
- **30-Minute Rainfast Warranty** –

The unique surfactant system of Roundup PROMAX allows the solution to penetrate weed leaf surfaces faster, which means Roundup PROMAX is rainfast in half the time of its predecessor, Roundup PRO

Greenhouse Efficacy and Rainfastness Study of Roundup PROMAX

Percent Control – Average of 4 Species

QUICK TO USE — QUICK TO ACT

For the performance you expect from Roundup® IT&O Products and fast, visible results within 24 hours, Roundup QuikPRO™ has what it takes to quickly satisfy the toughest customer.

- Controls most weeds, from the leaf to the root, in one application, with virtually no re-growth
- Rainfast in one hour
- Dry formulation is easy to handle, easy to clean up
- Forms a true solution that won't clog nozzles
- Convenient measuring cup spout makes it easy to measure and mix
- Bilingual label (Spanish and English)

ONE SOLUTION FOR A NUMBER OF TOUGH WEEDS

Certainty® turf herbicide is specially formulated for general weed control on highly managed turf and native grasses.

- Recommended for professional maintenance of residential and commercial turf sites, including athletic fields, parks, school grounds, sod and turfgrass seed farms, golf course fairways, roughs and tees, plus other highly managed turfgrass sites
- Controls tough weeds in warm-season turf, including purple and yellow nutsedge, kyllinga species, annual sedges and tough grassy weeds such as dallisgrass
- Safe to use on essentially all warm-season turf species
- Application flexibility allows for pre-plant, post-direct and over-the-top uses in landscape and nursery ornamentals
